Summary

Chapter 1 : Charts	6
Main components	6
Quality	6
Running charts	7
Destroying charts	7
Chapter 2 : Drawables	8
Overview	8
Base features	8
Drawables	8
Wireframeables	9
Composites	9
Enlightables	9
Selectable	10
Pickable	10
Textured	10
Text	10
Text renderers	10
Drawable text	11
Chapter 3 : Drawables for charts	12
Surfaces	12
Surface defined by a function	12
Surface defined by input points	14
Surface defined by polygons	15
Scatters	15
Histograms & bar charts	15
Chapter 4 : Colormaps	16
Overview	16
Apply a colormap to a drawable	17
Create a colorbar legend	17
Chapter 5 : Layout	18
View Layout	18
Maximize	18
Squarify	18
Text embedding	18
Orthogonal and perspective projections	19

View constraints.....	19
Viewpoint	19
Post renderers	19
Background	19
Tooltips	20
Chart layout.....	20
Axis Layout.....	21
Chapter 6 : Contour charts.....	22
Overview	22
Configuration.....	22
Contour lines	23
Filled Contour.....	23
Height Map Contour	23
Chapter 7 : Controllers.....	24
Mouse controllers.....	24
Controlling camera.....	24
Interaction with drawables	24
Threaded controllers	25
Keyboard controllers	25
Chapter 8 : Interactive objects	26
Overview	26
Picked objects	26
Selectable objects	27
Chapter 9 : Scene graph.....	28
Transforms	28
How does a Transform work	28
Uses of transforms.....	28
Chapter 10: Transparency	29
Handling transparency by sorting polygons.....	29
Handling transparency with a depth peeling algorithm	29
Other things to know regarding transparency.....	29
Chapter 11 : Events	30
View events.....	30
View point changed	30
View point reached top or bottom	30
Controller events.....	30
Drawable events	30
Chapter 12 : Maths and statistics package	31

Coordinates.....	31
Bounding boxes	31
Statistics and array processors	31
org.jzy3d.maths.Array.....	32
org.jzy3d.maths.Statistics	32
org.jzy3d.maths.Utils	32
Chapter 13 : Integrate the chart in your application	33
Understanding canvases.....	33
AWT applications	33
Swing applications.....	33
SWT applications	33
Offscreen applications.....	34
Screenshots	34
Chapter 14 : Component injection	34
Chapter 15 : Rendering.....	35
Chapter 16 : Going further with OpenGL	36
